WASHINGTON, May 17. - Secretary Smith. on behalf of the United States, and Chief Harris, Treasurer E. E. Starr, D. W. Lipe and J. T. Cunningham, the authorized representatives of the Cherokee nation, this afternoon signed the contract by which the United States becomes the owner of the Cherokee strip. The number of acres ceded is 6,022,754. Secretary Smith said that he hoped, by expediting in every possible way the preparations for the opening, to have everything in readiness for the president's proclamation on

Sept. 15.
Washington, May 17.-An anti-sconer organization has been effected, with headquarters in Washington, under the name of the Mutual Home association. The organization is to be composed of men who wish to become actual settlers when the Cherokee strip is opened up, and is intended to prevent fraud and the taking of any advantage by "sooners." Some of the men at the head of the scheme were formerly connected with the general land office, and claim to be familiar with the ground. The organizers claim to be doing

legitimate and honest business.

Some time since Chief Harris of the Cherokee nation addressed an official letter to the secretary of the interior, directing his attention to the first clause of the

to the bitter end.

A government official observed that this Cherokee intruder question was one of great importance—probably more important—than the Chinese expulsionliaw. He anticipated that considerable trouble would arise over the enforcement of the terms of the agreement, because many persons on the list claimed that they were citizen Cherokees by blood and not intruders, while others claimed to have been legally adopted and recognized and sublegally adopted and recognized and sub sequently expatriated contrary to the

which there were specifications.

Each specification gives a case in which Captain Johnson became indebted to persons or banks, which indebtedness he failed to pay. The second specification to the opening will be concluded to pay the second specification to the opening will be concluded to pay. The second specification to the opening will be concluded to pay the failed to pay. The second specification the only one of which he was found guitty, states that Captain Johnson assigned and transferred to H. Forbes & Co., of Boston his pay account and claim for pay for the month of January, 186, and also assigned and transferred his sainary for the same month to the Central National bank of Springfled, Mo. The accounts were presented for payment by both assigness on the same day, and because of double assignment and presentation, payment was refused, and Secretary Lamont ordered Captain Johnson's pay for the month wholly stopped. The court finds him guilty of the third specification, and sentenced him "to be reprintended by the regardless of publical affiliations." sentenced him "to be reprimanded by the

sentenced him "to be reprimanded by the reviewing attorner."

The following is Secretary Lamout's order in the case.

"In the foregoing case of Capitain W. A. S. Johnson (resired) the findings on the first and second specifications and upon the charge and sentence of the court are disapproved by direction of the president. In private life a person tried and adjurged guilty of assigning property as constead and then callecting and appropriating its avails to his own use, or of transferring for value received the same property to two separate persons, would be subjected. for value freely in the same property to two separate persons, would be subjected to severe and numiliating punishment. That a court martial, composed of officers of rank and experience, should so lightly regard similar offenses—here fully established and found—is a represent to the instell and found-in a reproduct to the service, and the proceeding is in marked inconsistency with the duty of protecting and maintaining the high sense of personal honor which has leng characterized the reputation of the arms.

A SWEEPING REFORM.

the civil service rules. It is little else than a complete wiping out of the present system and the substitution of some of the main features of the English system. Legislation will be needed to accomplish this, and yet considerable progress is possible under the present laws. It is reported that Mr. Cleveland has advanced considerably towards the plan of employing in the government service only these who are best qualified, regardless of political considerations. The qualifications are to be ascertained by a board not less removed from partisan influence than the supreme court. The service is to be arranged in from partisan influence than the supreme court. The service is to be arranged in grades, and under the best rules known in the business world, whereby fitness, moral, intellectual and physical, will be taken into account, but politics never. The president will have nothing whatever to do with making appaintments, save those of foreign ministe's and certain high officials, and the tenure will virtually be during good behavior. The president will make extensive recommendations to congress when it meets looking to this end.

THE IMMIGRATION INQUIRY. NEW YORK, May 17.-The senate inves tigating committee on fundigration mat ters visited Ellis island today and inspected the workings of the new immigration law. After returning to Dr. Senner's office, James A. Wright, second vice president of the International Navigation com-pany, was examined. Mr. Wright said-inat it was probable that the number of immigrants during 1893 would be nousually large, but he was not aware of an organized effort on the part of the steam-ship companies to encourage immigration to this country. He considered the law a

good one.

Senator Chandler said that, as a result of the investigations so far, he is satisfied that Commissioner Senaer and all others on the island are doing all in their power to carry out the new law. He recommended a more liberal appropriation of noney to carry on the work.

The committee adjourned, to convene

PUGILISTIC PARLIAMENTARIANS. PRAGUE, May 17. - There was a disgrace ful scene in the Bohemian diet today Herr Funke, in essaying to make himself heard during a hot dispute going on in the tribunal, made a sarcastic remark, which a deputy named Brazorsd con-strued as reflecting upon him. The offended deputy jumped over the desks, and, seizing Funke, had a wrestling en-counter in the presence of their colleagues. Brazorad finally successed in ejecting Brazorad finally succeeded in ejecting Funke. Everybody was shouting and shaking their fists, and angry challenges to fight were heard here and there. Upon Funke's re-entering the chamber an ink pot was shied at him by one of the Young Czechs, who were mainly responsible for the disturbances. They next attacked the stenographers and maitreated several of them. Prince Lobkewitz himself was menaced with personal violence, and declared the sixing closed. The scene in the dict caused closed. The acene in the diet caused great excitement in the city. The students of the university broke out in riotous demonstrations, and wrecked the windows of the club houses and of the mansions of people obnoxious to them. The poince are guarding the streets in the victory of the tribunal building tonight. The diet will probably bedissolved.
